PROSPECT FRIDAYS NO REGISTRATION REQUIRED

Prospect Fridays are brought to you in partnership with **Prospect Human Services**. Each workshop will be followed by a Job Club.

RESUME SKILLS

When it comes to your resume, “one size doesn’t fit all”. If you are using an internet template for your resume, you could be hurting your job search. Learn the different styles of resumes and discover the one that best fits your job search. We will show you how to target your resume to what employers are looking for. Identify key words to ensure that your resume is getting through Applicant Tracking Systems and getting into the hands of employers.

INTERVIEW SKILLS

Go into your next interview with confidence! Learn the necessary skills for in-person, online, and phone interviews, and also how to interview using a video link. We will show you the difference between Standard and Behavioural interview questions and how to target your answers. We will explore the STAR interview method, along with everything from pre-interview preparation to body language, asking your own questions and following up after the interview. You will be prepared so that you can put your best foot forward.

LINKEDIN AND SOCIAL MEDIA

Most employers have made reviewing your social media part of their hiring process. In this competitive labour market, social media is becoming more and more important to a job search - used as a tool to network and market your skills. Learn why it’s important to keep your LinkedIn page and other social media current and targeted. We will show you how to use social media to not only promote your skills but to show “fit” to organizations’ work culture.

JOB CLUB

The “Hidden Job Market” is where 80% of the jobs are found. These are the jobs that are not advertised online. Come meet some local Employment Specialists from Prospect and hear about the Cochrane labour market. We will share information on local employers and discuss who may be hiring now. This is a great opportunity to network with others and discuss your job search successes, tips, and tricks.

ADULT PROGRAMS

FIRESIDE CHATS REGISTERED

Join local experts and speakers in a series of engaging and informative talks.
Dates and times are listed on page 26.

SPEAKER: CAITLYNN BAILEY-CUMMINGS - *EAT LIKE AN ITALIAN*

You've booked your flights to Italy, and you're very excited to eat Italian food in its homeland. What first? Spaghetti with meatballs, fettuccini alfredo, or chicken parm? You enter your first restaurant in Italy, open the menu, and see... none of these? Come to this fun chat with Caitlynn Bailey-Cummings from DOP Italian Travel, and we'll dive into all the iconic Italian dishes we eat in North America that don't exist in Italy. Then we'll learn what (and how) Italians really eat, so you can get ready for your next trip to Italy, or incorporate some traditional Italian gastronomy into your everyday life in Alberta.

SPEAKER: CULTIVATE COCHRANE - *SEED SAVING*

Learn to preserve and share your garden's bounty for many years to come by saving seeds. Join Cultivate Cochrane as they share the tips and tricks for making sure you make the most of the seeds your garden produces.

SPEAKER: MICHAEL KERFOOT - *ACT NOW: PRACTICAL STEPS FOR CLIMATE CHANGE*

Join Michael Kerfoot for an impactful discussion on climate action, with practical ways each of us can respond to the climate crisis in our daily lives and homes. Drawing from decades of experience in designing energy-efficient homes and promoting behavioral shifts, Michael will share insights on how we can collectively harness our power to drive meaningful change. This conversation is not just about awareness—it's about taking action, right here and now, to secure a better future for future generations.

SPEAKER: ALI MORRISON - *SOUND ECOLOGY*

Since the 5th century, composers have drawn inspiration from nature, weaving its sounds into their music. Ali Morrison explores the history of nature-themed music, from Gregorian Chant to modern compositions that blend wildlife recordings with traditional instruments. You'll also learn about the emerging field of 'Sound Ecology,' which uses recordings to track wildlife migration and species loss, highlighting the impact of climate change on our planet.
